

License Information — Zenops Studio

Last updated: September 2026

Thank you for choosing Zenops Studio. We appreciate your trust in our products and are committed to providing high-quality digital resources that help creators, designers, developers, agencies, and businesses build exceptional projects.

This page provides a general overview of your license. It is intended as a helpful guide and should be read together with the official Zenops Studio Terms of Service and the applicable license associated with your download.

1. Who grants your license

Zenops IT is the seller and licensor of record for everything in this catalog. We either created the work ourselves or hold the rights to license it, and the license you receive is granted to you directly by Zenops IT, which operates Zenops Studio.

This means your agreement is with us. You do not need to seek permission from anyone else to use a resource within the terms of your license, and any question about your rights can be settled by contacting us.

2. Personal License

Resources obtained under the Personal License may be used in personal projects, subject to the restrictions below. Some resources are offered at no cost under this license; others are paid.

Unless otherwise stated on the product page, attribution is required. Attribution should clearly identify Zenops Studio as the original source and, where technically possible, include a link to <https://zenops.studio>. Failure to provide the required attribution may constitute a violation of the Personal License.

3. Commercial License

Resources purchased under the Commercial License include expanded usage rights and do not require attribution.

A Commercial License permits broader commercial usage, including client work, marketing materials, websites, applications, branding projects, social media campaigns, presentations, and other approved commercial uses, subject to the applicable license terms.

Each purchased license is granted to the purchaser and may not be transferred, shared, sublicensed, or redistributed except as expressly permitted.

4. Permitted uses

Unless specifically prohibited by the applicable license, you may use Zenops Studio resources in websites and landing pages, mobile and desktop applications, UI/UX design projects, social media content, digital advertisements, marketing campaigns, presentations, printed promotional materials, client projects, educational materials, commercial branding, software interfaces, product packaging, video productions, and motion graphics.

5. Restrictions

Unless expressly permitted, you may not:

- Sell, redistribute, sublicense, or share the original files.
- Upload the original assets to marketplaces, stock websites, template libraries, or file-sharing platforms.
- Claim ownership or authorship of any Zenops Studio resource.
- Make the resource available as a standalone downloadable product.
- Include the resource in competing asset collections.
- Use the resource in any unlawful, fraudulent, misleading, defamatory, discriminatory, or harmful manner.
- Remove copyright, trademark, or proprietary notices where applicable.

Any rights not expressly granted remain reserved by Zenops Studio.

6. Intellectual property

All intellectual property rights, copyrights, trademarks, and ownership of the original resources remain the exclusive property of Zenops IT. A license grants permission to use the resource — it does not transfer ownership.

7. Attribution

If your download requires attribution, an acceptable credit is: "Designed by Zenops Studio — <https://zenops.studio>". Where hyperlinks are not supported, a visible text credit identifying Zenops Studio is sufficient.

8. Support and updates

Product updates, bug fixes, revised files, and future improvements may be made available at the sole discretion of Zenops Studio. Availability of updates may depend on the license purchased and the product type.

9. Disclaimer

All resources are provided "as is" without warranties of any kind, whether express or implied, including but not limited to warranties of merchantability, fitness for a particular purpose, non-infringement, or uninterrupted availability.

Zenops IT shall not be liable for any direct, indirect, incidental, consequential, special, or punitive damages arising from the use or inability to use any resource, even if advised of the possibility of such damages. Users are responsible for ensuring that downloaded resources are suitable for their intended purpose and comply with applicable laws, regulations, and third-party rights.

10. Changes to the license

Zenops Studio reserves the right to modify or update its licensing terms, policies, and documentation at any time. The version of the license in effect at the time of download or purchase generally governs your use unless otherwise required by law.

11. Questions

If you have questions regarding licensing, commercial usage, enterprise licensing, or custom permissions, please contact our support team before using the resource at support@zenops.studio .

12. Governing terms

This page sets out the license granted with each resource — what you may and may not do with a file once you have it. The Zenops Studio Terms of Service govern the wider relationship: your account, payment, liability, and dispute resolution. On any matter other than the scope of the license grant itself, the Terms of Service prevail.

By downloading, purchasing, or using any Zenops Studio resource, you acknowledge that you have read, understood, and agreed to be bound by the applicable license terms and the Zenops Studio Terms of Service.
